Veteran Health Care Information

- **The PACT Act-** The PACT Act is a new law that expands VA health care and benefits for Veterans exposed to burn pits and other toxic substances. The new law empowers VA to provide generations of Veterans and their survivors with the care and benefits they have earned. Key components of the PACT Act can be located at the following link <https://www.va.gov/resources/the-pact-act-and-your-va-benefits/>.
- **The PACT Act will bring these changes:**
 - Expands and extends eligibility for VA health care for Veterans with toxic exposures and Veterans of the Vietnam, Gulf War, and post-9/11 eras.
 - Adds 20+ more presumptive conditions for burn pits, Agent Orange, and other toxic exposures.
 - Adds more presumptive-exposure locations for Agent Orange and radiation.
 - Requires VA to provide a toxic exposure screening to every Veteran enrolled in VA health care.
 - Helps us improve research, staff education, and treatment related to toxic exposures.
 - If you're a Veteran or survivor, you can file claims now to apply for PACT Act-related benefits be either visiting <https://www.va.gov/resources/the-pact-act-and-your-va-benefits/> or calling 1-800-698-2411 for more information.

Veterans do not need to be enrolled in the VA system to use this benefit, for more information click [HERE](#).

 - March 2023- Veterans that are already enrolled in VA Health Care and assigned to a primary care may have a breast cancer risk assessment and clinically appropriate mammogram completed by their provider.
